◆ DEPARTMENT OF PEDIATRICS CONDUCTED "WORLDIMMUNIZATION WEEK ON" APRIL 27 ◆ THEME - "THE BIG CATCH UP"

World immunization week is a global health care event, typically celebrated every year in the last week of April between 24th and 30th, intending to promote vaccine usage and protect people of all ages from infectious diseases.

ATTENDEES

HOD, Post graduates of dept. of Pediatrics and OBG

SYNERGIA23 EVENT BY UTKARSH

The Staff cricket team were the winners of the cricket tournament this year at AIMS & RC. The team was led by the captain Dr.Sunil Kumar D R , HOD, Department of Community Medicine.

NATIONAL PATHOLOGY DAY

13TH APRIL

The day marks the birth anniversary of Dr. V R Kharnakar, the first pathologist of India, also known as the father of Pathology and Medical Research in India.

Dr. Shilpa S Biradar
Professor & HOD
Dept. of Pathology
AIMS & RC

He has made major contributions to the epidemiology & understanding cancer, blood groups and leprosy. He was the first to use FNAC for the diagnosis of neoplasms. He also played a pivotal role in planning premier institutes in India including AIMS, New Delhi. He served as the first president of IAPM and Govt. of India conferred Padma Bhushan on him for his services in promoting medical research & education in 1955.

Pathology is the bridge between science and medicine, plays a major role in final diagnosis of diseases and has a crucial role in delivering high-quality medical care.

◆ FIRST HAIR TRANSPLANTATION

Hair transplantation is safe and relatively painless procedure which restores and grows hair naturally.

It gives ultimate permanent remedy for baldness.

Hair transplantation procedure includes removal of hair from the back of the scalp (donor area) and transferred to the bald area (recipient area). The transplanted hair will have same features like the donor area. There are different types of techniques like FUE (Follicular Unit Extraction), FUT (Follicular Unit Transplantation and DHI (Direct Hair Implantation) that are used to do the hair transplantation.

At Akash Hospital, this procedure is done in a well-equipped operation theatre by a specialist. The procedure is day care procedure with no complications and minimal post-procedural care with the finest results.

SUCCESS STORIES

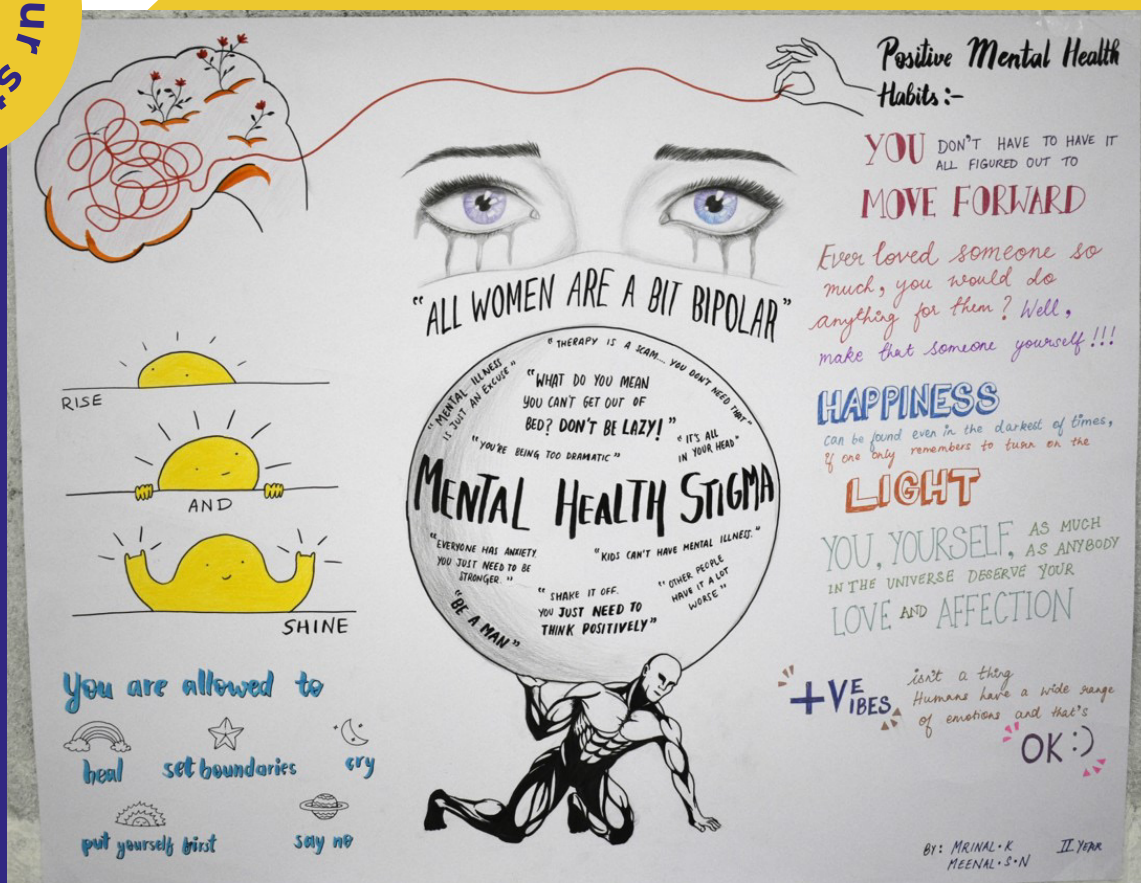

The department of Pediatrics have added another feather to their cap and have achieved great success in the management of a preterm neonate. A 30 week preterm baby with a birth weight of 1050g was delivered. The baby was admitted in the NICU for 52 days and has finally been discharged with a weight of 1575g. A big thanks to the management, Department of Pediatrics, Cloud Physician team and staff of NICU.
